

VICTIM OF THE PYRAMID

Follow the call of your heart!

Hints

WARNING:

Do not read before playing the games!

HINT 01

Some people say that handwriting reveals a person's nature and temperament... Mentally piece together Malyunali's pattern and you'll find the answer.

HINT 10

Stand in the position where you won't see the gods you offended. The gods always look straight ahead and their statues are different heights and widths.

HINT 03

The number and colour of the beads indicates which junction to take at each level of the labyrinth.

HINT 12

When the bright beam of light falls in the very center of the top of the amulet, it will point to something hidden from sight!

HINT 05

The avocado, favored by Cochimetl, opens a passage. How many maize cobs will you get for this fruit?

HINT 13

If you know where the sun rises, you will be able to determine the map orientation correctly. Then set the arrows so that they point to the direction in which the winds brought the clouds.

HINT 07

Insert the amulet through the slots and align it with the pyramid at the bottom of the reservoir. Symbols arise from others and create a new, unique symbol.

HINT 16

Look for the answer along the journey you've made. The length of the beads is sacred and will help you find the symbol of the god that opens the way.
